A Report on Expert Session

Data Classification with Naïve bayes

(Date: 19th December 2020, Time: 11am to 12noon)

The expert session was organized by GTU-Graduate School of Engineering and Technology under its **Skill Enhancement Program Series**.

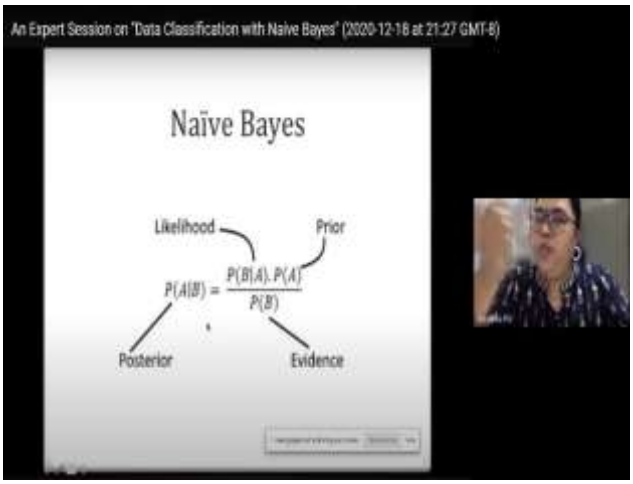
Prof. Kaushika Pal from Sarvajanik College of Engineering and Technology was a resource person in this expert session.

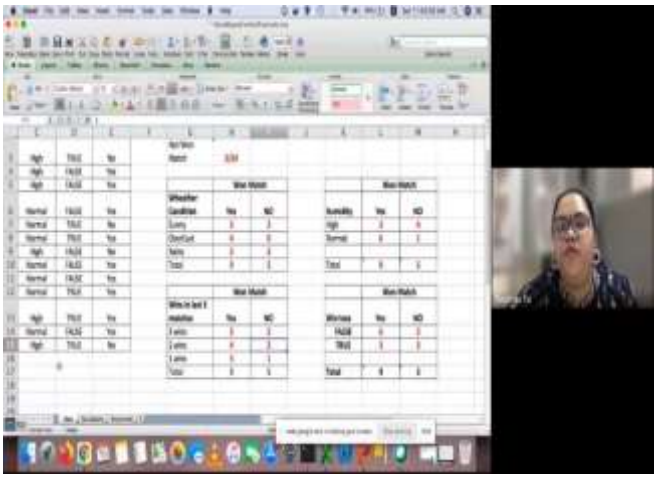
Objective

- To introduce the supervised machine learning, classification process, applications of classification.
- To provide insights of Naïve Bayes classifier, its working and applications.

Participants

Around 37 students of GSET (Post Graduate Diploma in Data Science and M.E.-Cyber Security) were participated and took benefits.





Outcomes

- Students came to know about characteristics of Naïve Bayes.
- Type of probabilities and relevance with Naïve Bayes.
- Applications of Supervised Machine Learning.
