## **Objective of this FDP:**

Digital Forensics is very much important for all the civil cases, criminal cases and Administrative cases in law as well as in the public and private organization. Whenever there is a crime, there is a need of evidences to put in the court and to find the evidences, there should be skilled person in the field of Digital Forensics.

The role of digital forensics expert is very important in any case and that person should have the skills to find the evidences from the digital gadgets. Recent times, a lot of job opportunities came in digital forensics, where different-government organization, forensics labs, law enforcement agency are hiring for forensics consultant.

## **Details of Inauguration Function.**

In the Inauguration function, Hon'ble Vice Chancellor Sir Prof.(Dr.) Navin Seth, highlights the efforts GTU is doing for the capacity building of the faculty members, students and law enforcement agency in the emerging field such as cyber security to have skilled person in specific domain in India.

Director GTU-GSET, Prof.(Dr.) S.D.Panchal highlights the current scenario of the mobile usage in Rural & Urban areas and the rapid increases of the cyber crime in India.

The chief guest of the STTP Mr. Rakshit Tandon narrated the importance of digital forensics in law enforcement agency with the help of the Ministry of Home project, Cybercrime Prevention against Women and Children under which every state will recruit Junior Forensic consultant having salary of Rs 1 Lakh per month.

**Outcomes:**

This STTP is beneficial to all the participants to get the practical knowledge of digital forensics.

To have hands-on of the tools which are used by Law Enforcement Agency to find the digital evidence for the court.
