# A Report on visit to Cyber Crime Cell Ahmedabad City

---

GTU- Graduate School of Engineering and Technology (GSET) had organized a visit to Cyber Crime Cell Ahmedabad for students of Master's of Engineering-Cyber Security and faculty members on 18th December 2021. One of the technical experts of the cyber crime cell gave information about the forensic tools that are used to get evidence from the electronic devices like mobile phone, hard disks, pen drives etc that are seized from the crime location. Following are the tools shown to students:(i) Cellebrite UFED (ii) Write Blocker (iii) Oxygen.

Total participants for the visit: 15-students and 4-faculty members.

Outcomes of the Visit:

- Information about the forensics tools used to get evidence from the digital gadgets.
  - Practical use of tool UFED for mobile forensics
  - Information about different types of cyber fraud and safety tips for social media.
-
