The objective of the Talk:

- Explore the latest cybercrime scenario, Laws, Policies, and compliances.

Abstract of the Talk:

In today's techno-savvy environment, the world is becoming more and more digitally sophisticated and so are cybercrimes. Internet was initially developed as a research and information sharing tool and was in an unregulated manner. As time passed by it became more transactional with e-business, e-commerce, e-governance etc. As the number of internet users and digital devices are on the rise, the cybercrime rate increases which leads to the need for cyber laws and their awareness among the users. The speaker highlighted recent cybercrime cases happening along with its investigation methodology and heir related section of cyber law, policies in India.

Participants:

- The students of the Cybersecurity Program (1st Semester) – a total of 27 students
