“SOIL INVESTIGATION: THE CORNERSTONE OF STRUCTURAL ENGINEERING”

18 November, 2024 (Monday)

11:00 AM Onwards

Our Speaker

Dr. Bhoomi Kamdar

Dr. Bhoomi A. Kamdar has a diverse and enriching professional background, combining extensive experience in both industry and academia. Currently serving as a Geotechnical Engineer at Anandjiwala Technical Consultancy (ATEC), Ahmedabad, she specializes in geotechnical lab testing, designing shallow and pile foundations, evaluating soil and rock parameters, preparing detailed geotechnical investigation reports, and supervising geotechnical sampling during site investigations. Her academic career includes a tenure as an Assistant Professor at Parul University, where she taught a wide range of subjects. Her work combines practical insights and cutting-edge research, focusing on solving real-world challenges with sustainable and efficient solutions. Having published extensively in reputed journals and presented at international conferences
