

Industrial Visit Report

Odoo India Pvt. Ltd., Infocity, Gandhinagar

Date: 19 November, 2025

Time: 10:30 AM – 12:45 PM

Faculty Coordinators: Prof. Anamika Mittal, Prof. Dhvani Modi

An industrial visit to Odoo India Pvt. Ltd. was organized for postgraduate students of GTU-SET (School of Engineering & Technology), Gujarat Technological University, from the branches of Cyber Security and Artificial Intelligence–Data Science. A total of 34 students from GTU-SET, accompanied by two faculty members, Prof. Anamika Mittal and Prof. Dhvani Modi, participated in the visit. The visit aimed to provide students with industry-oriented exposure to software development workflows, open-source platforms, and enterprise solutions.

The session commenced with an informative presentation about the company's operational structure and the architecture of its open-source ERP ecosystem. Students learned how different modules integrate within a unified platform. Company representatives also explained development standards, customization processes, version control practices, and deployment methods followed in real client projects.

Students were briefed about internship opportunities, recruitment processes, and essential technical competencies required for selection. The interaction on Odoo Hackathons provided insights into innovation-driven problem-solving and teamwork.

Overall, the visit provided GTU-SET students with valuable practical exposure, bridging the gap between academic learning and industrial practices, and enhancing their readiness for future IT career opportunities.
