

Report on Research Talk on “LaTeX for Report Writing”

Topic: Research Talk on “LaTeX for Report Writing”

Date: 19th November 2025

Time: 03.15 PM - 05.00 PM

Venue: Lab – 330, GTU-SET, Chandkheda, Ahmedabad

Event Summary

PG in Civil (Structural Engineering) department of GTU SET have conducted an expert session on “LaTeX for Report Writing”. The invited expert was Dr. Raj Hakani, Assistant Professor GTU SET with the objective of enhancing academic and research documentation skills among postgraduate students and research scholars.

The session was attended by M.Tech students and full-time PhD scholars, who actively participated in the program. The expert deliberated on the effective use of LaTeX for research paper writing, thesis formatting, and structured academic documentation.

Key topics covered during the session included are as:

1. research paper preparation using LaTeX,
2. thesis structuring and formatting, academic documentation best practices, and
3. management of citations, references, tables, figures, packages, and templates.

The session provided valuable insights into professional document preparation and standard research writing workflows. The interaction with participants was highly engaging and informative, enabling attendees to clarify their queries and strengthen their research writing skills.

The program was attended by 19 students and coordinated by Prof. Mridul Seth under the guidance of Prof. (Dr.) Jignesh A Amin, Professor GTU-SET.
