

“Report on Industrial Visit - eInfochips - An Arrow Company”

Industrial Visit: eInfochips, Ognaj , Ahmedabad

Semester: B.E 4th Semester and 8th Semester Internship students (Electronics & Communication)

Date of Visit: 28th April 2026

Co-ordinated by: Prof.Aayushi Garg, Assistant Professor, GTU-SET, Mr Bharatkumar Darji ,Lab Technician (Coordinator), Prof (Dr.) Gautam Makwana (Associate Professor -GTU -SET).

No. of Participating Students: 54

Organised By: GTU-School of Engineering and Technology

1. Company Overview

The GTU-School of Engineering and Technology (GTU-SET), Ahmedabad, successfully organised a visit to **eInfochips**, an Arrow company. The visit provided valuable insights into product engineering and semiconductor design services.

eInfochips is a leading global provider with over 500+ products developed and more than 40 million deployments across 140 countries. The company focuses on digital transformation and connected IoT solutions across major cloud platforms such as AWS and Azure. The visit highlighted the importance of semiconductor innovation, product development, and advanced technologies in strengthening India's technological ecosystem.

2. Highlights of the Visit:

The visit aimed to provide students with practical knowledge of **product engineering, semiconductor design services, and emerging technologies** at eInfochips. It helped bridge the gap between theoretical concepts learned in academics and their real-world industrial applications. Additionally, students gained insights into career opportunities in semiconductor design, embedded systems, IoT, and digital transformation domains.

- Understood the importance of semiconductor design and product engineering in modern electronics.
- Gained exposure to real-world applications of IoT, embedded systems, and cloud-based solutions (AWS&Azure).
- Learned about industry practices in developing scalable and innovative technology solutions.
- Understood the role of companies like eInfochips in global technological advancements.
- Enhanced knowledge about future trends in semiconductor design, digital transformation, and connected systems.
