

Gujarat Technological University School of Engineering and Technology

Report on One Day Workshop on “Applied Agentic AI”

Date & Time : 17th September, 2026, 11:00 A.M to 03:00 P.M

Co-ordinated by: Prof. Disha Bhatt (Asst. Prof.-CE, GTU-SET), Dr. Aanal Raval (Asst. Prof.-CE, GTU-SET), Dr. Gautam Makwana (HOD – CE, GTU-SET)

Patron: Dr Madhuri Bhavsar, Director, GTU-SET

Expert/Speaker: Mr. Vimal Rughani, Founder & CTO of Himanjali Intelligent Automation Pvt. Ltd. and Founder & CEO of Virtual Reality Systems

Venue: Aryabhata Seminar Hall (302), GTU-SET

Participants: Students from BE Computer Engineering, ME Artificial Intelligent & Data Science and ME Cyber Security of GTU-SET

No. of Participating Students: 140

Objective: The objective of one day workshop is to give students industry-oriented exposure to how Agentic AI systems are being applied to real-world business problems. Provide practical insights on Agentic AI use cases, AI agents interacting with enterprise systems and tools, GenAI applications, and the role of AI in Information Security.

One day workshop on “**Applied Agentic AI**” was successfully conducted on **Thursday, 17th September 2026**, from 11:00 A.M. to 3:00 P.M. at Aryabhata Seminar Hall (302), GTU-SET. The workshop was delivered by **Mr. Vimal Rughani**, Founder of Himanjali Intelligent Automation Pvt. Ltd. and Virtual Reality Systems, who brought **over 18 years** of valuable industry experience and practical knowledge to the discussion. The event was efficiently coordinated & conducted by **Prof. Disha Bhatt, Dr. Aanal Raval, and Dr. Gautam Makwana (HOD – CE Dept)**, ensuring its smooth and systematic execution. Mr. Bharat Darji and Ms. Pratiksha Parmar also provided valuable support to the organizing team in the successful execution of the workshop.

A total of **140** enthusiast students from **BE - Computer Engineering, ME - Artificial Intelligent & Data Science and ME - Cyber Security** of GTU-SET actively participated in the workshop.

The expert provided deep insights into the real-world application of **Agentic AI**, sharing practical use cases implemented in IT industry and explaining how **AI agents** are structured to work with tools, APIs, and enterprise systems. He further discussed the architecture and design patterns that matter when building reliable Agentic AI systems, and addressed common security vulnerabilities and security risks associated with AI agents, including a reference to the OWASP Top 10 for Agentic AI, while emphasizing the importance of access control, guardrails, observability, human approval, and governance.

Additionally, the expert shared insights into the current direction of the AI agent market and the reasons why Agentic AI is becoming increasingly important for developers and enterprises, helping students relate emerging technological trends to future career opportunities. The interactive nature of the workshop encouraged participants to ask questions, making it more engaging and impactful.

Overall, the workshop proved to be highly informative and beneficial. It successfully enhanced participants' understanding of Agentic AI and its real-world applications, and motivated them to explore innovative approaches to automation, intelligent decision-making, and solution development. The knowledge and exposure gained during the workshop will significantly support students in their academic growth and future career readiness.
